TELECOMMUNICATIONS SERVICES

A complete range of telecommunications services is available to all government users. Services encompass telephone (local and long distance), data communication systems, voice processing systems and various other special telecommunication systems. Both operational and advisory services are provided. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of shared multiministry telecommunication services. Advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination, and both the preparation of request for proposals and evaluation of supplier proposals.

To obtain information or assistance regarding these services, call your MBS Customer Support Representative. The name and number are located under the Office of the Corporate Chief Information Officer, iSERV Ontario, Customer Relations listings within the Management Board Secretariat section of the Management Board of Cabinet.

VOICE PROCESSING SERVICES

Voice messaging subscribers have the ability to send and receive detailed information in voice mail format at anytime, from any phone at any location, reducing and/or eliminating the need for real-time conversations. Through use of the network messaging feature, subscribers can reword a single message and address it to be sent to a distribution list to destinations throughout the province-wide network.

INFORMATION MAILBOX/AUDIOTEX lets callers get information without the need to speak with a "real" person. The information mailbox can be designated to handle many categories of routine and frequently asked questions to allow the public greater access to government information. This lets staff handle more calls around the clock. Enhanced optional features are available such as Fax-back service.

AUTOMATED ATTENDANT answers incoming calls promptly and guides callers to select the extension of the right person or department. If a specific ministry person is not known or required, the caller has the option of speaking with the ministry operator.

INTERACTIVE VOICE RESPONSE (IVR) is a service used to automate both telephone inquiries and business transactions. Using a touch-tone keypad, authorized callers can access pre-recorded information about a ministry program, then enter or get approved information from the ministry host computer. Information is spoken back to the caller in a pre-recorded voice without operator involvement. Enhanced features offer the ability to conduct credit card transactions, including payments.

AUDIO CONFERENCING SERVICE

The Audio Conferencing Service is a reliable, practical and cost effective way to conduct business meetings using the telephone or speakerphone. This service is offered by iSERV and it allows you to conference on a moment's notice once an account is established. The service is easy to use; scheduling a conference is as simple as giving the participants the access phone number and conference entry code and letting them know the date and time of the meeting.

Types of Audio Conference Services

- 1) *Standing Conference Services* – This is reservation-less conferencing, no need to reserve conferences once you have an account.
- 2) *Dial-Out Service* – Conference staff calls participants to connect them to the conference.
- 3) *Event Call Service* – for conferences with more than 100 participants.

For more information and to set up an account call (416) 325-3400, Monday to Friday, 7:30 a.m. to 5:30 p.m. You can visit our Web site at intra.iserv.gov.on.ca or send an email to iserv.audioconferencing@mbs.gov.on.ca

YOU AND YOUR VOICE MAIL TIPS FOR SUCCESS

Voice mail, a Voicenet Ontario service provided by Management Board Secretariat, can be one of your most effective business tools, whatever your job or your ministry.

Voice mail improves your ability to communicate because it can be used any time of the day or night, regardless of office hours and time zones.

But it's important to be professional in your use of voice mail — else it could seem impersonal and irritating to your callers.

The following guidelines can help ensure you take full advantage of this service and avoid any pitfalls!

Answer Your Phone When You're At Your Desk

- don't use voice mail to screen calls

Use Call Forwarding

- call forward your phone when away from your office — don't make your callers wait 3-4 rings before being answered
- don't rely on message waiting lights, check for messages even if not activated

Personal Greetings Are Important

- update your personal greeting daily
- make it enthusiastic and courteous
- indicate when the caller can expect to have her/his call returned
- return messages promptly
- use the extended absence greeting when you plan to be away for more than a day

Give Your Callers An Option

- using a Touch-Tone phone, callers should be able to 'press 0' and be able to reach a person for assistance during office hours
- rotary dial callers should be given an alternate greeting telephone number to call to reach your 'live' telephone support person
- clearly state this information in your personal greeting — callers have the right to speak to a human being!

Be Security Conscious

- use a minimum six digit password — maximum fifteen
- keep your password confidential
- don't use easily guessed numbers such as your phone number, birth date or the same repetitive digit
- change it once a month
- suspect a security problem? Contact your Ministry Voice Mail Coordinator

A Sample Personal Greeting You May Wish To Consider

- you have reached (name)
- today is (date)
- I'm in the office today, but either on the phone or away from my desk
- you may leave a message at any time by pressing the pound sign from your touchtone phone or wait for the tone after this message ends
- if you need immediate assistance, press '0' on your touch-tone phone or dial (reception number)
- thank you

Following these tips will help us to meet our common objective of providing good customer service to our callers!

CALL DISPLAY

Call display, also known as Caller ID, presents a visual display of the calling party's telephone number on a telephone set equipped with a screen.

As external Caller ID becomes more widely used, concerns have been raised about the potential for this technology to invade an individual's privacy. The primary concern is that Caller ID allows for the display and collection of telephone numbers without the knowledge or consent of the caller.

Below is a summary of Caller ID guidelines developed by the Information and Privacy Commissioner/Ontario under the mandate of the *Freedom of Information and Protection of Privacy Act* and the *Municipal Freedom of Information and Protection of Privacy Act*.

- **APPROPRIATENESS OF CALLER ID**

Be sure to carefully evaluate the usefulness and appropriateness of knowing who is calling and from where in order to determine legitimate circumstances for using Caller ID.

- **IDENTITY OF CALLER**

Do not assume the identity of a caller based on caller display information. Employees should take all reasonable and appropriate steps to verify the identity of the caller before disclosing personal information over the telephone.

Because call display may not provide a reliable mechanism for identifying a caller, records should be neither recorded nor retrieved on the basis of call display alone.

- **BUSINESS CALLS MADE BY GOVERNMENT EMPLOYEES FROM NON-GOVERNMENT TELEPHONES**

Employees should take steps to guard against the potential collection and misuse of the telephone number, when making business calls from telephone lines outside of government offices. These steps may include the use of call blocking or public telephones. Free call blocking is available for most telephone lines upon request from the telephone company. Where call blocking has not been previously requested or is not available for a telephone line, there will be a charge for blocking caller display information through the operator.

- **LOCATION OF CALLER ID EQUIPMENT**

Steps should be taken to ensure that equipment is located in a manner such that caller display information is not disclosed to unauthorized individuals.

CONCLUSION:

An awareness of the privacy concerns associated with Caller ID should be integrated into the daily practices of government organizations using this service.

LEGISLATIVE ASSEMBLY OF ONTARIO

The Legislative Assembly, commonly called the House, consists of 103 Members of Provincial Parliament (MPPs) elected to represent the people in their constituencies. The Assembly performs legislative, financial and critical functions. It considers proposals for legislation or bills; enacts, amends and repeals legislation; authorizes the collection of funds from the people of Ontario; and scrutinizes the policies put forth by the government. As the presiding officer, the Speaker of the Assembly is responsible for both the policy and operations of the Legislature. The Clerk of the Assembly, in the capacity of principal permanent officer, provides the Speaker and MPPs with procedural advice.

INFORMATION AND PRIVACY COMMISSIONER/ ONTARIO

Suite 1700 80 Bloor St W
Toronto ON M5S 2V1

The Information and Privacy Commissioner (IPC) oversees the Freedom of Information and Protection of Privacy Act and the Municipal Freedom of Information and Protection of Privacy Act. These acts grant individuals the right of access to government-held records and the right to protection of personal information held by the government.

The Office has two prime responsibilities: ensuring the public's right of access to government-held information; and protecting the individual's right of privacy, as it relates to personal information held by provincial and local government organizations. Anyone not satisfied with a government decision about access to information may ask the IPC to review the government's decision. In addition, the IPC investigates complaints from individuals who feel the government has wrongfully collected, used or disclosed their personal information.

The Commissioner reports directly to the Legislative Assembly.

MINISTRY OF AGRICULTURE AND FOOD

1 Stone Rd W
Guelph ON N1G 4Y2

The vision of the Ministry of Agriculture and Food (OMAF) is "a strong agri-food sector that is integral to Ontario's economy and contributes innovative solutions to societal challenges." The ministry works in partnership with an industry that employs more than 650,000 people and contributes more than \$30 billion annually to the provincial economy. The ministry plays a key role in bringing a strong agricultural and food industry perspective to provincial policies. OMAF also supports other ministries in resolving local economic issues and assists communities in retaining and attracting business. Staff at the ministry's Guelph headquarters and across the province provide a wide range of agri-food programs and services.

**MINISTRY OF
COMMUNITY AND
SOCIAL SERVICES**

6th Flr Hepburn Block 80 Grosvenor St
Toronto ON M7A 1E9

The Ministry of Community and Social Services vision is to be an effective and affordable system of community and social services that supports and invests in: families and communities, to encourage responsibility and accountability; adults, so they can live as independently as possible; a services system in which children are safe and people most in need receive support. We will be guided by the values of shared responsibility, accountability and fairness, as we deliver integrated and client-focused services.

The ministry has three core businesses: income and employment supports; children's services; and social and community services. Services are provided to help parents give their children the best start in life, and to those who are in need, including adults; children and youth; and people with physical and developmental disabilities.

The Ministry of Consumer and Business Services (MCBS) promotes a fair, safe and informed marketplace that supports a competitive economy in Ontario. It provides individuals and businesses greater choice in how, when and where they access government services and products. Through programs like Ontario Business Connects, Publications Ontario and Government Information Counters, we are working to provide better services for businesses and individuals. MCBS sets standards of conduct for businesses; promotes consumer rights; investigates questionable business practices; registers vital statistics such as births, deaths, marriages and changes of names, land transfers and ownership, and personal property. Alcohol and Gaming Commission regulates beverage alcohol and ensures integrity in the gaming sector; Ontario Film Review Board classifies films and videos; Office of the Athletics Commissioner sanctions all boxing and wrestling events; Licence Appeal Tribunal hears appeals in a variety of areas.

MINISTRY OF EDUCATION

22nd Flr Mowat Block 900 Bay St
Toronto ON M7A 1L2

The Ministry of Education administers the system of publicly funded elementary and secondary school education in Ontario, in accordance with the directions set by the provincial government.

The ministry also provides education services to students at schools for the blind, the deaf and the deafblind. The Minister of Education, through the ministry, issues curricula; sets requirements for student diplomas and certificates; and provides funding to school boards for academic instruction and for building and maintaining schools.

The minister may also set policy for student assessment, which is then carried out by the Education Quality and Accountability Office (EQAO). The EQAO gives the minister advice on assessment policy, and issues reports on the results of its assessments.

The Ministry of Intergovernmental Affairs advises the Ontario government on intergovernmental issues.

MANAGEMENT BOARD OF CABINET

12th Flr Ferguson Block 77 Wellesley St W
Toronto ON M7A 1N3

The Management Board of Cabinet (MBC) is the Committee of Cabinet responsible for the management of the public service and the operations of government. MBC provides central leadership on the management of the government's financial, human and physical resources, which support fiscal and policy priorities. In December 1971, the Management Board of Cabinet Act established the board and its secretariat and gave the board its authority. Officially representing the Government of Ontario as the employer of its public servants, the board consists of a Chair, a Vice-Chair and four to six other members of the Executive Council designated by the Lieutenant-Governor-in-Council. The Management Board Secretariat provides staff support to the board in matters related to the Management Board of Cabinet Act and Public Service Act.
